by Wasatch Premier Communities

1 GETTING READY:

Preparation: make sure you gather everything you need the day before; follow our checklist moving guide!

2 MANAGING TIME:

Moving often takes longer than you expect! Be smart and plan ahead for all problems that may arise to give yourself plenty of time to handle issues as they arise.

3 PETS & CHILDREN

Keep your pets and small children at a safe distance when lifting and transporting heavy objects. Plan an activity for them to do in advance, or arrange for a sitter.

4 THINK SAFETY:

Wear comfortable clothing and appropriate safety gear when lifting heavy objects. Keep in mind safety lifting techniques, you'd be surprised how sore you'll be after a long day of improper lifting.

5 ASK FOR HELP:

Get as many friends and family involved in the move as possible. After you've settled in, invite them over for a thank-you gathering.
